

**KID'S CREEK THERAPY** is pleased to offer *Speech Connections: An Intensive Apraxia Treatment Approach*, using evidence-based techniques in an individualized program to elicit correct speech production in children with childhood apraxia of speech.

Goals of the program include:

1. Increase and/or refine speech sound repertoire
2. Increase expressive vocabulary skills
3. Increase ability to combine words
4. Increase ability to express wants, needs, and thoughts

Our program includes: evaluation, one-on-one treatment, home program, parent education, and treatment summary for speech therapist to continue treatment.
